Database on Sahelo-Sudanian rodents
information on available samples and collecting means

This database introduces an observed list of specimens collected since the beginning of the 20th century in the sahelio-sudanian area

Tables can be accessed by species and/or country. They provide information on taxa and collecting location coordinates as well as the associated samples (specimens, tissues, parasites).

TIP: to identify where samples of a given species have been collected, choose the target species and select "ALL" in the country field.

Access to the detailed data (biometry, ...) and samples are welcome and may be considered through collaborations : contact jean-marc.duplantier@ird.fr or Laurent.granjon@ird.fr

The pdf file provides a short summary of the BDRSS project and context

TRACE OF THE KNOWLEDGE

11. Information support(s) provided: PHP based web site

13. Reference source of the knowledge: Granjon, L. and Duplantier, J.M. (2009) Les rongeurs de l'Afrique Sahelo-Soudanaise (taxonomie, histoire naturelle, biogéographie). IRD-MNHN-Ed., Col. Faune et Flore Tropicales, 437 pages, 2009

14. These data can be made available on the web site: YES NO CONTACTME

Home page of a thematic centre d'informations (CI)

Currently : 27 Informations Items (complete list)

Pick one of the following generic theme covered :

- Taxon (Acomys, Anomaluridae, ...)
- Discipline or approach (epigenetic, cytogenetic, ...)
- Biological object (chromosome, fauna, ...)
- Location (West Africa, conserans, ...)
- Tool (General problem, data collection, ...)
- Technique (AFIP, ap-densitometry, ...)
- Biological process or mechanism (adaptation, balanced selection, ...)
- Phenomenon (epigenetic, climate change, ...)
- Time frame (1960, de years, ...)
- Concept (change, calculator gene, ...)
- Habitat (agro-ecosystem, ruralized agriculture, ...)

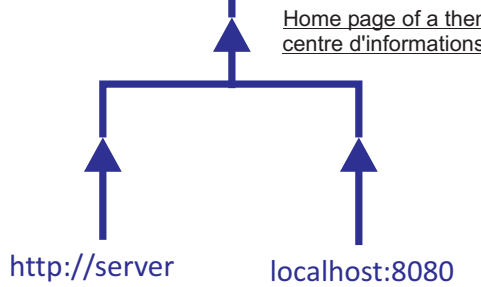

or look for a **keyword** (3-millions years, Acomys, ...)

or search by **information type** such as :

- Type of rodents (open, closed, ...)
- Type of knowledge (book, database, ...)

then follow your preferred links
